- Students benefit when high expectations and clear standards are understood by students, teachers, staff, families and the community.
- Students benefit when they are taught to think, reason and develop an intellectual curiosity which will assure continuance of the learning process.
- Students benefit from an academically rich curriculum that includes a wide variety of extra-curricular programs.
- Students benefit when the family and the school work closely together to promote learning and support children.
- Students benefit when they are taught the values of good citizenship, integrity, honesty, mutual respect and to take responsibility for their actions.
